## EDUCATION

- **Master's Degree Computer Vision**

  USTHB, Alger          2022- present

  Image processing, machine learning, Design and development of video games, Visualization of large masses of data, Multimedia communication and image compression.

- **Bachelor's degree in Academic computer science**

  USTHB, Alger          2019 - 2021

  Algorithms, logic, programming languages (python, C, Java, JS,PHP), database (SQL), compilation, design of architectures and systems, object-oriented programming.

## SKILL

**Soft Skills :** Fast learner, Adaptability, Creativity, Passionate.

**Web Dev :** React, Node js, express js, Nextjs, PHP, bootstrap, tailwind, Ajax, JQuery, WebSocket.

**Programmation :** C, python, javascript.

**Machine learning :** scikit-learn, Numpy, Open CV, Matplotlib.

**Databases :** SQL, PL/SQL, MongoDB, MySQL

**Tools :** git, Jupyter, linux

## EXPERIENCE AND PROJECTS

**Development of a housing advertisement website.** (html, css bootstrap, js, JQuery, Ajax, WebSocket, php, mysql)          GP-USTHB-2022

- Manage user Sign in with Google API
- Implementing real-time messages between users with web socket.
- Implementing real-time system notifications.
- Implementing and using Google map API.
- Implementing admin manager of the site.

**Development of a 2D video game utilizing advanced AI algorithms.**

(Python)          TP-USTHB-2022

- Implementing BFS and A* search algorithms.
- Implementing three different heuristics with deadlock detection.
- Implemented GUI interface using Pygame.

**Developing a website for mental health care for women.**

(MERN stack)          IWD-hackathon-ESI-2023

**Designed a platform for camera surveillance security and system notifications to detect fires using AI algorithms.**

(Figma)          JunctionX-hackathon-2023

## LANGUAGES

**Arabic :** (native language)

**French :** B2 in TCF

**English :** intermediate
